

Delightfully becoming colors— effective weaves

are descriptive of the new Fall styles.

The colors are soft and subdued, and most often the dark tones of blue, brown, grey and green. And because the dark tones and black is especially good.

The materials include many beautiful and unique mixtures, some smooth in finish, some rough—checks and plaids, zibelines, wool ratine and wool crepe, soft broadcloths and velvets, duvetynes, wonderful plush and fur fabrics. Many of the smartest models are furnished with cord and tassel ornaments. Fur bands and edgings form a much-to-be-desired trimming for many a coat and suit.

All these materials and colors are well represented in our Bischof line of coats and suits. Come in and examine the new materials—see how delightfully soft and yet how warm they are, what practical winter garments they make. If you have heretofore found it difficult to secure a becoming color, let us prove to you that this season's colors are exceptionally easy to wear.

Don't put off getting your new winter clothes until the styles begin to get old. Lead the style instead of following it.

In last week's issue of the Signal there was an article claiming that we were taken to London as a witness or as a prisoner. Well, for the benefit of the readers of the Signal, will say we went as a witness in a suit between Frank Burton and the Adams Express Company and was back in the space of three hours. We will give as a reward a nice present for the name of the writer who wrote the article. We know this much, that it bubbled in Livingston and bloomed in Mt. Vernon, but what we want to know is the author, and if we don't get even with him we will not charge him one cent for the difference. THE YEAR OF IT'S BIRTH 1887

By JAMES MARET.

The SIGNAL is 27 years and two weeks old today. The first complete copy was printed at 12 o'clock on the night of Friday, November 4, 1884, in a room over the store house of J. R. Vowels, now the property of D. C. Price. The paper was printed on an army hand press which required three hands to operate; one to use ink roller, another to place on and take the paper from press and one to turn the crank. It was a tedious and slow operation but good work was turned out. One man today in SIGNAL office with its improved machinery does the press work that would have required four men at time this paper started. The paper was a five column eight-page, patent inside, four pages home print. James Maret was the editor and J. E. Vowels, business manager; W. B. Fox and John R. Vowels typists, R. G. Williams, traveling solicitor.

The advertisements showed up as follows: The legal profession, McClure & Williams, J. W. Brown, J. G. Carter and J. R. Cook. The doctors, J. J. Brown, S. C. Davis and A. G. Lovell, Mt. Vernon; Dr. I. MEMBER OF
KENTUCKY PRESS ASSOCIATION

Owing to the nearness of expected bad weather with muddy roads following, the Louisville Automobile Club has decided to defer the proposed auto trip from that city to Cumberland Gap via Crab Orchard over Boone Way route and will send out Mr. R. E. Woods director general of the Kentucky Good Roads Association and Mr. Z. D. Dunlap, assistant director general of the American Highway Association. These officers are good speakers and bring good news to the mountains. This is about the first work of the Kentucky association, giving Boone Way a boost. The gentlemen will start over the route with in next six or eight days; beginning at Mt. Vernon continuing to London, Barbourville, Pineville and Middlesboro. Exact dates will be given later.

In its canvass for securing three hundred new members at \$5. each the Ky. Gd. Rds. Ass'n. at Louisville last week got more than the three hundred and are still canvassing. Mr. J. H. Bartlett, one of Louisville's solid citizens took 20 certificates and paid in \$100 and says he will donate \$100, to each county thru which Boone way passes

THERE was never such an awakening in Kentucky on the road question as is taking place now, especially in this case with Louisville. That city proposes to help push Boone Way "On to Cumberland Gap."

W. J. SPARKS of W. J. Sparks Co., is standing around with \$1.00 on his shoulder waiting for the Boone Way makers to come along knock it off and go to work on that highway.

BEFORE this time next year there ought to be something doing in the automobile line between here, Crab Orchard, Louisville and the outside world generally. Let her do.

R. E. WOODS, director general of the Kentucky Good Roads Association comes to Rockcastle bringing good news.

LOUISVILLE now sees the star above Cumberland Gap and is journeying best it can in that direction.

Louisville has a membership of several hundred belonging to the Kentucky Good Roads Association.

OUR highway should be completed to Cumberland Gap in 18 months.

ROCKCASTLE FISCAL COURT

Call Term, Nov. 10, 1914.

At a meeting of the Rockcastle Fiscal Court, held on the 10th day of November, 1914, the following resolutions were adopted:—

WHEREAS, the public interest of Rockcastle County demands the improvement of the herein after described public road, therefore, be it resolved: That the Fiscal Court of Rockcastle County undertakes the improvement of a highway leading from the Lincoln to the Laurel County line over the most direct and practicable route, connecting the county seat of Rockcastle County with the County seats of Lincoln and Laurel Counties. Said road to follow, as nearly as practicable, the route of Boone's trail and the old Wilderness turnpike, this being the initial step in the construction of BOONE WAY.

Be it further resolved that said court hereby requests the State Department of Public Roads to

make a survey of said route as early as possible, and furnish plans, profile and specifications with an estimate of cost for said improvements.

Formal applications is hereby made to the State Department of Public Roads for Rockcastle County's just and proportionate share of the State Road Fund for 1915 to aid in the improvement of that portion of said route leading from the Lincoln county line to Mt. Vernon, as provided by an act of the General Assembly of the Commonwealth of Kentucky to create and establish a system of public roads, and to provide for the construction and maintenance of same, Approved March 24th 1914.

WHEREAS, the Commercial Club of Mt. Vernon, about twelve months ago, suggested the idea of the construction of a macadam road from Crab Orchard, Kentucky, to Cumberland Gap, Virginia, to be built as nearly as practicable along the trail of the Old Pioneer, Daniel Boone, to be known as Boone Way, and whereas, the Boone Way Booster Band, was organized to aid in the agitation of said movement, and whereas, the same has attracted the attention of counties along the route and the Commercial Club of Louisville, Cincinnati and Bristol, and other cities and towns interested, and whereas the Fiscal Court of Rockcastle County has undertaken the construction of that portion of said road lying in Rockcastle, now therefore, be it resolved that we now call upon and invite the Fiscal Court and officers of the other counties, thru which said highway will run to take similar action and by so doing will assure the construction of said road.

TURKS FIRED ON AMERICAN CREW

Forced Launch Out of the Harbor at Smyrna.

CAPTAIN ISSUES CHALLENGE

When a Crew of a Launch Sent From the Cruiser Tennessee to Make Inquiries From Turkish Port Authorities Was Compelled to Turn Back, Commander of Warship Sent Word That He Would Enter the Harbor.

Constantinople, Nov. 18.—The war office announces that British troops have been badly defeated near Fao on the Persian gulf and that a thousand British were killed.

Athens, Nov. 18.—A dispatch received here says the American armored cruiser Tennessee anchored at Vuria in Asia Minor and sent a party in a launch to confer with the authorities of Smyrna with a view to obtaining an authorization for the cruiser to enter the harbor.

The forts fired on the launch, which was obliged to return to the Tennessee. The commander of the American warship then notified the governor of the port that he had received orders from the American government to enter the harbor and he was determined to comply with his instructions.

Navy Department Skeptical.

Washington, Nov. 18.—According to the latest reports of the navy department from the Tennessee she is at Mitylene. No order has been sent her to leave there, but she is at liberty to go elsewhere if the commanding officer thinks it necessary. Navy officers do not believe she has left, however, nor do they believe she has gone to Smyrna because weeks ago the United States was notified of the mining of Smyrna harbor. Secretary Daniels expressed doubt that the Tennessee was at Smyrna, as reported.

PRESIDENT IS ENCOURAGED

Issues Prosperity Note Based on Federal Reserve System.

Washington, Nov. 18.—President Wilson sounded an optimistic note on business in a letter addressed to Secretary of the Treasury McAdoo. "Taking as the occasion for a prosperity keynote, the opening of the federal reserve system, the president in acknowledging a brief letter from Mr. McAdoo announcing the successful opening of the reserve system, declared that the country is in a fair way to prosperous conditions. The president disclaims personal credit for the financial legislation and graciously acknowledges the efforts of others, who with "labor and knowledge and foresight and practical experience co-operated with unusual wisdom and admirable public spirit" to bring it about.

Incidentally the president recognizes the efforts of the banks and the railroads to meet the situation and suggests that the railroad problem will have to be dealt with at an early date in a spirit of "candor."

The letter of Secretary McAdoo to the president, which called out the letter, informed the president that the twelve federal reserve banks authorized by the federal reserve act were formally opened for business, counsel stating him upon the actual establishment of these banks, and adding "They are the result of the great piece of financial legislation with which your name is imperishably associated and which promises in my judgment incalculable benefits to the people."

AN INFLUENCE FOR GOOD

Financiers Take Hopeful View of Completion of Cotton Fund.

Washington, Nov. 18.—The War cotton fund of \$100,000,000 has been completed. This fund, which is to be administered under direction of the federal reserve board through a bankers' committee already appointed, will soon become available for loans on cotton at 6 cents a pound.

It is the belief of the administration officials that the assembling of the cotton fund will have a salutary effect on business generally and that it will have an influence for good on the international commercial situation.

Charity Worker Ends Life.

Los Angeles, Cal., Nov. 18.—Herbert W. Lewis, head of the Children's Home Aid Society of California, committed suicide by taking poison. Lewis was arrested on a San Francisco warrant, the complainant being a fifteen-year-old girl in his charge. He was fifty-five years old, a man of family and more than state-wide prominence in the work of rescuing waifs and reclaiming wayward girls. He had protested his innocence of the offense charged against him.

Child Probably Fatally Burned.

Evansville, Ind., Nov. 18.—When trying to light a lamp here, the four-year-old son of Mrs. Orpha Leonard was so seriously burned that physicians say he will die. The boy's clothing caught fire when coal oil from the lamp spilled.

Indiana's annual apple show is in progress at Indianapolis.

REMARKABLE CURE OF CROUP

"Last winter when my little boy had croup I got him a bottle of Chamberlain's Cough Remedy. I honestly believe it saved his life," writes Mrs. J. B. Cook, Indiana, Pa. "It cut the phlegm and relieved his coughing spells. I am most grateful for what this remedy has done for him." For sale by all dealers.

IT HINGES UPON GENERAL VILLA

Question of Peace Or War in Mexico.

GARRANZA'S LATEST TERMS

Deposed Chief Now Makes His Proposed Retirement and Exile Conditional Upon the Same Action on Villa's Part and Proposes, as a Guaranty, That the Latter Shall Meet Him in Havana Not Later Than Nov. 25.

El Paso, Nov. 18.—General Villa is willing to leave Mexico in accordance with the agreement between the Agias Calientes convention and General Carranza, who also is to leave the republic, but Villa is anxious first to see the provisional president, Gutierrez, safely established in Mexico City. This is the purport of messages which have reached border agents of the convention.

Washington, Nov. 18.—Upon General Villa hinges the question whether there is to be revolution or peace in Mexico for the immediate future, according to dispatches received at the state department.

It is believed that the willingness of Carranza to retire unconditionally, as announced, is really dependent upon his previous announcement, namely, that Villa not only retire from his military command, but that he leave the country. Carranza also makes the new condition that Villa must meet him in Havana not later than Nov. 25, according to state department advice. It is supposed here that Carranza's novel proposal that Villa meet him in Havana Nov. 25, is due to a desire to have before him the eyes satisfactory and conclusive evidence that Villa is not really in Mexico leading an army.

This information was received at the state department from Consul Silliman in Mexico City. Mr. Silliman also reported that the papers were publishing the text of an alleged telegram from General Gutierrez, the provision at present chosen by the convention to succeed Carranza, announcing that he was willing to accept the conditions of Carranza's retirement.

On the other hand not a word has been received here officially indicating that General Gutierrez, Villa or the convention have done anything toward accepting Carranza's latest offer to resign conditionally. It is known officially, however, that General Gutierrez is disposed to go very far toward making Carranza's retirement from office easy for the first chief. There has not, however, come any word that Villa has retired voluntarily from his military command nor that General Gutierrez has relieved him of his command.

Advices came to the Constitutional headquarters in Washington that Villa's troops under command of General Angeles engaged in battle yesterday with troops of General Carranza at Leon in the state of Guanajuato, and were defeated. The headquarters also have advices that Arriola brothers, leading the Carranza troops, are moving against Torreon.

KILLING THE FILIBUSTERS

Villa Announces War to Extremism Against Armed Bands.

Juarez, Nov. 18.—A war of extermination is being waged on filibusters around Juarez by Villa's troops. Following a battle at Guadalupe, in which the filibusters were killed, seven of the band who had surrendered to the Villa troops were executed in Juarez. The execution was in the old barracks in which more than 100 have been shot to death during the four years of revolution, and was witnessed by a crowd of people, among the number being several Americans. The order had been issued by Villa that all men found in northern Mexico bearing arms who are not allied with his forces are to be put to death when found. The seven filibusters who had surrendered expected amnesty, but were executed within an hour after they were brought into Juarez. They had raided the T. O. ranch, owned by Morris & Co., and had been driven back by American cowboys when troops from the Juarez garrison overtook and attacked them.

William and Lou Davis have a

In an interview with Mr. Robt.
E. Woods, the good roads man,
who was here Monday making ar-
rangements for a speaking and
boosting campaign said he was
much gratified with the situation
as he found it in Mt. Vernon on
the highway question. That it
was the warmest bunch of Com-
mercial Club members and Boost-
ers he had met on his travels. He
hoped their ideas and pushing
ways would spread thru the state.
Mr. W. said he believed that
Laurel, Knox and Bell, whose
wid awake representatives attend-
ed the conference here today, have
fully grasped the importance of
the work in hand will be equally
as enthusiastic as the Rockcastle
Boosters. Mr. W. was surprised
at the great number of splendid
concrete sidewalks found here
and remarked about the purity
of the air. Said he thought many
city people would sojourn here
when our road is completed and
they can come and go in their ma-
chines.

Mr. W. H. Cox, aged 72, and
one of the best known citizens of
our town died, last Saturday
morning after an illness of two
weeks, of a complication of
troubles.

When Mr. Cox passed to his re-
ward, Mt. Vernon and Rockcastle
county lost a citizen, whose sta-
tion in life cannot be filled. His
life was one of purity and his
every day walk characterized the
christian man that he was. There
did not live in the county a better,
purer or nobler man than he. He
was known far and wide as the
manufacturer of the celebrated
Cox wagon. In the church he was
a leader, in business affairs his
timely advice was often sought
and in the social world his life was
an example for others to follow.

The heart broken wife, and five
children survive, all of whom re-
side in Mt. Vernon.

Short services were conducted
at the grave Sunday afternoon by
Rev. Allen of the Baptist church,
where a large concourse of admir-
ing friends gathered to pay their
last tribute of respect notwith-
standing the heavy down pour of
rain.

Boosters of Middlesboro
Pineville, Barbours-

Meet in Conference

WITH ROBERT E. WOODS,
DIRECTOR KENTUCKY
GOOD ROADS
ASSOCIATION

AT MT. VERNON

With Her Boosters Wed. Last.

Itinery Made For A Boone Way Speak-
ing Campaign.

An enthusiastic conference was
held here Wednesday morning in
the office of County Attorney, E.
R. Gentry. Mr. Robt. E. Woods,
former postmaster of Louisville,
now state director of the Kentucky
Good Roads Association was here
to meet Boone Way Boosters from
Middlesboro, Pineville, Barbours-
ville, London, Livingston, Brod-
head, Crab Orchard, W. H. Fish,
president of Boone Way Booster
Band, introduced Mr. Woods who
explained the condition under
which state aid could be secured
and explained the working of the
system of state supervision of con-
struction of highways on which
state aid is expended. No roads
but good ones are made under this
system. He stated that the pro-
posed road from Crab Orchard to
Middlesboro is the most impor-
tant highway yet projected in
Kentucky and his Association
while showing no favorites in any
Kentucky group of roads would
lend every effort to render all possi-
ble assistance in getting our high-
way pushed thru the four counties.
The speaker mentioned that his
attention had been called to Boone
Way pushers of Mt. Vernon some
time ago and this is among his
first trips out and that he usually
went to those counties first who
had a road proposition in concrete
form, and gave them the needed
assistance in way of instructions,
and advice in way of looking to
securing state aid and other valu-
able information. The object of
his trip to Mt. Vernon was to con-
fer with the Boosters from the
towns and counties along the pro-
posed route. Roll call showed the
following present:

H. C. Chappell, of the Three
States, Middlesboro, J. H. Buily
county engineer representing his
county and Judge T. J. Asher, A.
C. Vaughn and Wm. Tye, Bar-
bourville; W. H. Poynter and
Mayor E. A. Pallard of London.
Everyone the liveliest of live wires
each enthusiastic and speaking;
right out in meeting and making
good suggestions when it came to
mapping out a program for a
speaking campaign all along the
line; first at the county seats be-
ginning Monday Nov. 23 at Mt.
Vernon in the Court House at 1 p.
m. London Wednesday Nov. 25
at 1 p. m. Barboursville, Friday
Nov. 27th 7 p. m. In the Court
houses at all the above places.
Mr. R. C. Terrell, Commissioner
of public roads will accompany
Mr. Woods on this trip and boost-
ers of one town will escort the
speakers to the neighboring town.
The above named delegates were
appointed as committees for their
respective counties to advertise
and make arrangements for meet-
ings in their county seats. R. L.
Collier of Crab Orchard, and W.
H. Fish Mt. Vernon were named
for Rockcastle. A short time
after this speaking tour on which
an organization will be perfected
at each county seat, Mr. Woods
will make dates to speak and as-
sist in organizing clubs at Crab
Orchard, Brodhead, Livingston
and Corbin.

Everyone present felt encour-
aged over the progress being
made; expressed themselves
pleased over their warm reception
by the Mt. Vernon Commercial
Club members, the Boosters and
citizens of Mt. Vernon and Rock-
castle county generally. They
left on noon train for their homes
highly pleased with the good work
already accomplished. When
boarding the train they didn't for-
get the slogan "On to Cumberland
Gap."

a call Tuesday. The Reformers
seem to be well pleased with the

that faith. C. C. Williams, always

subscribed and paid up for six
copies of the Signal which he
sends to his friends, besides in-
ducing others to subscribe. Jacob

at this office yesterday.

C. W. Ping left Sunday night to

This is the third time we have
printed this item. We know he's
gone this time, for we sat up and
started him on the train. T. T.
Wallace after spending several
months with Duffield's surveying
party in East Kentucky has re-
turned home.—J. M. Anderson, a
predestinarian preacher, of Laurel
county, wished to wed E. G. Wil-
son's daughter, Lizzie, but Wilson
said it was predestined, that they
must wait a year. Anderson en-
deavored to pass off the time by
killing the horses of his prospec-
tive father-in-law, pouring coal oil
in his well and blowing him up with
dynamite. The neighbors declare
that it was written before the
flood that they will eventually
string Anderson up by the neck
of he comes back.—Seven hun-
dred miles of railway built in Ken-

his pistol in the crowd which cre-
ated some excitement. No dam-
age. Too much pine top! As

writes.

DEPENDENCY DUE TO INDIGESTION.

It is not all surprising that persons who have indigestion become discouraged and despondent. Here are a few words of hope and cheer for them by Mrs. Blanche Bowers, Indiana, Pa. "For years my digestion was so poor that I could only eat the lightest foods. I tried everything that I heard of to get relief, but not until about a year ago when I saw Chamberlain's Tablets advertised and got a bottle of them, did I find the right treatment. I soon began to improve, and since taking a few bottles of them my digestion is fine." For sale by all dealers.

Mr. James Mar. J.
Mt. Vernon, Ky.

Dear Sir:

I am glad to learn from your letter of the 12th that the Rockcastle Fiscal Court got in band wagon of progress and made the necessary appropriation to take advantage of your State Aid proposition and build the Bristol-Foxington Highway and Boone Way thru that county.

It begins to look like Kentucky is going to wake up and meet Virginia at Cumberland Gap with a pike road.

I received the SIGNAL this morning and note you are boosting the Scout trip. I enclose copy of letter to Louisville Automobile Club, which explains itself. I suggest that you write Mr. Stuart also Mr. Bartlett.

Our supply of maps is almost exhausted, but if we have any left I will have too sent you at once. Will have more printed as soon as we can get the paper here, and can then furnish you all you need.

If the Louisville Auto Club don't want to run the automobile scout party, owing to luteness of fall and expected bad weather, then get them to send you one or two good speakers and get the State Highway Engineer, Mr. Terrell, and one or two good speakers along the route, and hold a series of meetings anyhow. With best wishes,

Yours very truly,
HENRY ROBERTS.

ALLIES CONDUCTING WINNING OFFENSIVE

Operations in Flanders Reported "Satisfactory."

Paris, Nov. 18.—The impression gained here by the latest official report is, as the statement itself says, "satisfactory." The announcement that the allies have made progress at every important point where the fighting has been important during the past two days, since the loss of Dixmude, indicates that the German advance has been definitely checked and that the plan of General Joffre to push his lines ahead, no matter how slowly, is one that takes fully into account temporary checks and incidental reverses.

The report is especially cheering because of the fact that the Germans have again begun their former tactics in the region of Ypres, which has all along been the center of the most severe actions and that the allies have held their ground and even made more or less marked progress. The report detailed attempts of the Germans to advance at a number of points and recorded the complete success of the allies in repulsing these efforts, notably on the canal to the south of Dixmude, to the south of Ypres, on the Aisne in the neighborhood of Vailly, and to the south of Hixchoote.

Announcement also was made in positive terms that the allies have been conducting an extremely successful offensive, particularly against the point of the German wedge. Here for the first time an attack from the west by the French troops resulted in a German repulse. The report showed that the allies now have a foothold in the village of Chavencourt, about a mile and a quarter west of St. Mihiel, the sole remaining point of support left to the enemy on the left bank of the Meuse in this locality. Violent cannonading has been resumed in the Rheims region and several shells have again fallen in the city.

EASTERN CAMPAIGN FURIOUS

Germans Facing a

RUSSIANS PUSHING ON

In Poland the Fighting Is Be-
coming a Great Battle.

REPORTS FROM PETROGRAD

Continue to Indicate Progress
of Czar's Forces.

Berlin, Nov. 18.—The general staff announces that important operations have occurred on the western front and that in the east the situation is favorable.

Petrograd, Nov. 18.—A special envoy from Serbia has arrived here to urge Russia to assist his country, whose army has been reduced from 100,000 to 30,000. Serbia is said to be in fear of conquest by Austria and Russia will take active steps to win.

Petrograd, Nov. 18.—The Russians continue to inflict heavy losses on the Germans. Between Metz and the Warthe they have broken their communications and the water difficulties compel the fighting columns constantly to change ground, but always the Russian cavalry maintains its ascendancy.

The Germans in this vicinity number probably about 250,000. They have on their left flank the Russian army, which has been thrown on Kalisz, and on their right a Russian army which is fighting toward the north toward Soudan.

The Germans are unquestionably suffering more disaster in this prairie region than if they had remained in their own permanent positions across near Thorn, but sacrifices had to be made as the only means of learning whether the chief strength of Russia was to be thrown into East Prussia toward the northward. Russian leaders still keep the enemy in the dark respecting their main strategic plan. The Germans are fighting desperately among the Mazurian lakes. The Russians are constantly using their bayonets. They find piles of dead on each line of resistance.

Fighting Was Desperate.

The fighting was especially furious when the Russians took Goldap and pierced the front of the main German column. Here the Russians turned beyond the north end of the retreating army, which at the end of the day's fighting found itself attacked on three sides. It suffered so terribly that General Franclos, commanding the German westward retreat across East Prussia, had to detach another army corps to screen the rear of his transports.

From his headquarters at Thorn General von Hindenburg is intensifying his desperate effort to arrest the development of a winter campaign in Germany. His forces are fighting valiantly in a large triangular battle area in northwest Poland. The Germans are spread along a base from the Vistula to the Warthe. The Russians form two sides of the triangle and are pressing them backward on the frontier.

Cavalry Suffering Terribly.

This struggle has grown in violence in three days and has now assumed the dimensions of a great battle. It is General von Hindenburg's last remedy against finding his position at Thorn passed by the great Russian armies, one moving westward and the other northward. The Russians are displaying their shock tactics, which, during the onslaughts against the Germans when the latter were driven from the vicinity of Warsaw, wrought tremendous losses. The German cavalry is much exhausted and is suffering terribly.

Meanwhile the Russian southern army has vigorously begun the investment of Cracow by moving armies from the northeast along the Radom road, and is marching westward across Gallea. General Dankl, who is directing the defense of Cracow, has moved his foremost works six miles beyond the permanent outer section of the fortress. His position now is in the firing zone of the Russian advance.

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill."
